Backblaze Announces Second Quarter 2022 Financial Results

45% Revenue Growth in B2 Cloud Storage, 28% Revenue Growth Overall in Q2 2022

San Mateo, CA (August 9, 2022)—Backblaze, Inc. (Nasdaq: BLZE), a leading storage cloud platform, today announced results for its second quarter ended June 30, 2022.

"Our 28% revenue growth in Q2 not only outpaced what we achieved last year in the same period, it also highlights the strength of our recurring revenue model and that data grows through varying economic conditions," said Gleb Budman, CEO. "In addition, in Q2, the amount of data added by B2 Cloud Storage customers was greater than for any other quarter in company history, we added a customer with our largest purchase order ever, and in July we hired an experienced Chief Marketing Officer, Kevin Gavin, to help continue driving our growth."

Second Quarter 2022 Financial Highlights:

- Revenue of \$20.7 million, an increase of 28% year-over-year (YoY).
 - B2 Cloud Storage revenue was \$7.7 million, an increase of 45% YoY.
 - Computer Backup revenue was \$12.8 million, an increase of 20% YoY.
- Gross profit of \$11.1 million, or 54% of revenue, compared to \$8.2 million and 51% of revenue, in Q2 2021.
- Adjusted gross profit of \$15.9 million, or 77% of revenue, compared to \$12.2 million and 75% of revenue in Q2 2021.
- Net loss of \$(11.6) million compared to a net loss of \$(2.4) million in Q2 2021.
- Net loss per share of (0.37) compared to a net loss per share of (0.13) in Q2 2021.
- Adjusted EBITDA of \$(1.9) million, or (9)% of revenue, compared to \$1.5 million and 9% of revenue in Q2 2021.
- Non-GAAP net loss of \$(7.2) million compared to non-GAAP net loss of \$(3.5) million in Q2 2021.
- Non-GAAP net loss per share of \$(0.23) compared to a non-GAAP net loss per share of \$(0.19) in Q2 2021.
- Cash and investments totaled \$88.1 million as of June 30, 2022.

Second Quarter 2022 Operational Highlights:

- Annual recurring revenue (ARR) was \$82.7 million, an increase of 28% YoY.
 - B2 Cloud Storage ARR was \$31.3 million, an increase of 44% YoY.
 - Computer Backup ARR was \$51.4 million, an increase of 20% YoY.
 - Net revenue retention (NRR) rate was 113% compared to 110% in Q2 2021.
 - B2 Cloud Storage NRR was 126% compared to 132% in Q2 2021.
 - Computer Backup NRR was 107% compared to 102% in Q2 2021.
 - Gross customer retention rate was 91% in Q2 2022 and Q2 2021.
 - B2 Cloud Storage gross customer retention rate was 90% compared to 89% in Q2 2021.
 - Computer Backup gross customer retention rate was 91% in Q2 2022 and Q2 2021.

Q2 and Recent Business Highlights:

- B2 Cloud Storage data stored: Added highest amount in company history.
- B2 Cloud Storage purchase order: Added customer with our largest purchase order ever.
- Chief Marketing Officer: Hired experienced marketing executive, Kevin Gavin, for the newly created position.
- Channel Partner program: Launched a suite of tools, resources, incentives, and benefits for partners.
- New partnerships: Added new partners Carahsoft (Public Sector/Education/Health Care) and Veritas (tier Backup Exec service backups to B2 Cloud Storage).

2

• **B2 Cloud Replication:** Achieved general availability in June for this new feature which supports multiple use cases, including geographic distribution to support disaster recovery objectives or serve compliance needs.

Financial Outlook:

Based on information available as of August 9, 2022,

For the third quarter of 2022 we expect:

- Revenue between \$21.4 million to \$21.8 million.
- Adjusted EBITDA margin between (18)% to (14)%.
- Basic weighted average shares outstanding of 31.9 million to 32.9 million shares.

For full-year 2022 we expect:

- Revenue between \$83 million to \$86 million.
- Adjusted EBITDA margin between (17)% to (13)%.

Conference Call Information:

Backblaze will host a conference call today, August 9, 2022 at 1:30 p.m. PT (4:30 p.m. ET) to review its financial results.

Attend the webcast here: https://edge.media-server.com/mmc/p/zhf67wc9 Register to listen by phone here: https://dpregister.com/sreg/10169489/f3c57101ca

Phone registrants will receive dial-in information via email.

An archive of the webcast will be available shortly after its completion on the Investor Relations section of the Backblaze website at https://ir.backblaze.com.

About Backblaze

Backblaze makes it astonishingly easy to store, use, and protect data. The Backblaze Storage Cloud provides a foundation for businesses, developers, IT professionals, and individuals to build applications, host content, manage media, back up and archive data, and more. With over two billion gigabytes of data storage under management, the company currently works with more than 500,000 customers in over 175 countries. Founded in 2007, the company is based in San Mateo, CA. For more information, please go to www.backblaze.com.

Cautionary Note Regarding Forward-looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve risks and uncertainties. These forward-looking statements are frequently identified by the use of forward-looking terminology, including the terms "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "likely," "may," "plan," "possible," "potential," "predict," "project," "should," "target," "will," "would," or other similar terms or expressions that relate to our future performance, expectations, strategy, plans or intentions, and include statements in the section titled "Financial Outlook" and statements regarding the use and impact of our IPO proceeds.

Our actual results could differ materially from those stated in or implied by the forward-looking statements in this press release due to a number of factors, including but not limited to: market competition, including competitors that may have greater size, offerings, and resources; effectively managing growth; disruption in our service or loss of availability of customers' data; cyberattacks; ability to attract and retain customers; continued growth consistent with historical levels; ability to successfully offer new features on a timely basis; material defects or errors in our software; supply chain disruption; achieve success with our existing and new partnerships; ability to remediate and prevent material weaknesses in our internal controls over financial reporting; the impact of inflation, the COVID-19 pandemic and other factors relating to our business and the business of our customers, partners, vendors, and supply chain; and general market, political, economic, and business conditions. Further information on these and additional risks, uncertainties, assumptions, and other factors that could cause actual results or outcomes to differ materially from those included in or implied by the forward-looking statements contained in this release are included under the caption "Risk Factors" and elsewhere in our final prospectus dated November 10, 2021 as filed with the Securities and Exchange Commission (the "SEC") pursuant to Rule 424(b)(4) on November 12, 2021 (the "Final Prospectus"), and other filings and reports we make with the SEC from time to time.

The forward-looking statements made in this release reflect our views as of the date of this press release. We undertake no obligation to update any forward-looking statements in this press release, whether as a result of new information, future events or otherwise.

Non-GAAP Financial Measures

To supplement the financial measures prepared in accordance with generally accepted accounting principles (GAAP), we use non-GAAP adjusted gross margin and adjusted EBITDA margin. These non-GAAP financial

measures exclude certain items and are not prepared in accordance with GAAP; therefore, the information is not necessarily comparable to other companies and should be considered as a supplement to, not a substitute for, or superior to, the corresponding measures calculated in accordance with GAAP. We present these non-GAAP measures because management believes they are a useful measure of the company's performance and provide an additional basis for assessing our operating results. Please see the appendix attached to this press release for a reconciliation of non-GAAP adjusted gross margin and adjusted EBITDA margin to the most directly comparable GAAP financial measures.

A reconciliation of non-GAAP guidance measures to corresponding GAAP measures is not available on a forward-looking basis without unreasonable effort due to the uncertainty regarding, and the potential variability of, expenses and other factors in the future. For example, stock-based compensation expense-related charges are impacted by the timing of employee stock transactions, the future fair market value of our common stock, and our future hiring and retention needs, all of which are difficult to predict with reasonable accuracy and subject to constant change.

Adjusted Gross Profit (and Margin)

We believe adjusted gross profit (and margin), when taken together with our GAAP financial results, provides a meaningful assessment of our performance and is useful to us for evaluating our ongoing operations and for internal planning and forecasting purposes.

We define adjusted gross margin as gross profit, exclusive of stock-based compensation expense, depreciation expense of our property and equipment, and amortization expense of capitalized internal-use software included within cost of revenue, as a percentage of adjusted gross profit to revenue. We exclude stock-based compensation, which is a non-cash item, because we do not consider it indicative of our core operating performance. We exclude depreciation expense of our property and equipment and amortization expense of capitalized internal-use software, because these may not reflect current or future cash spending levels to support our business. We believe adjusted gross margin provides consistency and comparability with our past financial performance and facilitates period-to-period comparisons of operations, as this metric eliminates the effects of depreciation and amortization.

Adjusted EBITDA

We define adjusted EBITDA as net loss adjusted to exclude depreciation and amortization, stock-based compensation, interest expense, income tax provision, unrealized loss on SAFE and gain on extinguishment of debt. We use adjusted EBITDA to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that adjusted EBITDA, when taken together with our GAAP financial results, provides meaningful supplemental information regarding our operating performance by excluding certain items that may not be indicative of our business, results of operations, or outlook. We consider adjusted EBITDA to be an important measure because it helps illustrate underlying trends in our business and our historical operating performance on a more consistent basis.

Non-GAAP Net Income (Loss)

We define non-GAAP net income (loss) as net income adjusted to exclude stock-based compensation and other items we deem non-recurring. We believe that non-GAAP net income (loss), when taken together with our GAAP financial results, provides meaningful supplemental information regarding our operating performance by excluding certain items that may not be indicative of our business, results of operations, or outlook.

Key Business Metrics:

Annual Recurring Revenue (ARR)

We define annual recurring revenue (ARR) as the annualized value of all Backblaze B2 and Computer Backup arrangements as of the end of a period. Given the renewable nature of our business, we view ARR as an important indicator of our financial performance and operating results, and we believe it is a useful metric for internal planning and analysis. ARR is calculated based on multiplying the monthly revenue from all Backblaze B2 and Computer Backup arrangements, which represent greater than 98% of our revenue for the periods presented (and excludes

Physical Media revenue), for the last month of a period by 12. Our annual recurring revenue for Computer Backup and B2 Cloud Storage is calculated in the same manner as our overall annual recurring revenue based on the revenue from our Computer Backup and B2 Cloud Storage solutions, respectively.

Net Revenue Retention Rate (NRR)

Our overall net revenue retention rate (NRR) is a trailing four-quarter average of the recurring revenue from a cohort of customers in a quarter as compared to the same quarter in the prior year. We calculate our overall net revenue retention rate for a quarter by dividing (i) recurring revenue in the current quarter from any accounts that were active at the end of the same quarter of the prior year by (ii) recurring revenue in the current corresponding quarter from those same accounts. Our overall net revenue retention rate includes any expansion of revenue from existing customers and is net of revenue contraction and customer attrition, and excludes revenue from new customers in the current period. Our net revenue retention rate for Computer Backup and B2 Cloud Storage is calculated in the same manner as our overall net revenue retention rate based on the revenue from our Computer Backup and B2 Cloud Storage solutions, respectively.

Gross Customer Retention Rate

We use gross customer retention rate to measure our ability to retain our customers. Our gross customer retention rate reflects only customer losses and does not reflect the expansion or contraction of revenue we earn from our existing customers. We believe our high gross customer retention rates demonstrate that we serve a vital service to our customers, as the vast majority of our customers tend to continue to use our platform from one period to the next. To calculate our gross customer retention rate, we take the trailing four-quarter average of the percentage of cohort of customers who were active at the end of the quarter in the prior year that are still active at the end of the current quarter. We calculate our gross customer retention rate for a quarter by dividing (i) the number of accounts that generated revenue in the last month of the current quarter that also generated recurring revenue during the last month of the corresponding quarter in the prior year.

Additional Key Business Metrics Calculation Notes

The metrics for net revenue retention rate and gross customer retention rate are currently calculated using only those customers paying by credit card and exclude customers paying by invoice utilizing a different system. The amounts related to the number of customers paying by invoice has historically been immaterial.
